Found Bones On Mountain Trail

Nrah Kamakau a cowboy while hunting cattle on the flats above Maalea Bay stumbled across the body of what proved to be a Japanese named Nishiyama. That the body had been there some considerable time was conclusive as nothing remained but a bundle of bones.

He reported the matter to the Sheriff's office. Deputy Sheriff Sadery went to the location which was on the old trail between Wailuku and Lahaina. From the personal effect, was found a tax receipt from Kona dated 1901, as well as certificate from the deputy tax assessor of that district exempting Nishiyama from taxation on account of insanity.

There were no marks on the remains showing possible foul play, but an inquest will be held. The personal effects with a report will be sent to High Sheriff Henry.

Old Land Mark Destroyed

The first of the week saw a crew of men armed with pickaxes and shovels, swoop down the sheriff's quarters, which caused him, his deputy, clerk and police officers to take refuge in the old school building, recently vacated.

This wholesale devastation of one of Maui's old landmarks becomes necessary to make room for the new and modern Jail and Fire Station.

As near as can be learned from the old residents, the building which has heretofore served as quarters for the Sheriff, his corps of assistants, for the jailor and for Maui's derelicts was built somewhere in the 50's or 60's and with the exception of some few minor repairs has done continual service, rain or shine.

Temporary airing quarters for Jailor Crowell's numerous boarders is being constructed in the school yard, and the basement of the school house will be utilized for housing the prisoners at night. It is expected that three months time will be required before the new jail and Fire Station will be completed.
